WORK EXPERIENCE

(Remote) Junior Fontend Developer

[Tweevest, Paris, France](#)

2021 - 2022

As a Front-End Developer at Tweevest, I designed and developed user interfaces, collaborated with back-end developers, and utilized modern technologies **React.js** and **Next.js** to enhance platform accessibility and usability.

(Remote) Junior Fontend Developer

[Tradingfeed, Alkmaar, Netherlands](#)

2023 - 2024

Tradingfeed was challenging for me as a front-end developer. It was a large project. And also have ton of complex components. But I managed it after some days of explore. Overall had a great experience

(Remote) Senior Fontend Developer

[AlokitoTeachers, Dhaka, Bangladesh](#)

2024 - 2024

Alokito Teachers is a product of Alokito Hridoy Foundation. Which is one of the best digital platform for teachers in Bangladesh. I have encounter some complexity on 4 types of users management. But end of the day I have done it.

(Remote) Senior Fontend Developer

[Fiverr.com](#)

Present

On Fiverr I have completed 80+ production level projects with 100% recommendation and customer satisfaction. I am working as a Senior Front-End developer.
